Burning Instructions

1. Prepare the grate with kindling, paper and firelighters
2. Open up the burners' air flow fully
3. Place on 2-3 briquettes allowing for air to circulate around product and light the fire
4. Once fire is established turn air flow down to maximise burn time

*Briquettes should be stored in a dry environment and must be kept dry to ensure optimum results

Benefits to use

Save time, money and effort!

- ❖ Avoid problems with inconsistent firewood
- ❖ Recycled wood product
- ❖ Save time and effort moving and storing firewood
- ❖ Fill burner less often
- ❖ No splinters
- ❖ Composted ash can be used as garden fertiliser
- ❖ Keep house warmer for longer
